------------	--------------

25X1A

25X1A

[redacted] delivered two copies each of "Outline for ON Handbook" [redacted] 2200901-TM-9(D) and Chapters I, "Density/Exposure and Derived Data" and II, "Tonal Rendition" of "Operational Handbook for ON Evaluation", [redacted] 2200901-ONH-1(D). These were in draft form, and submitted for comments.

25X1A

A meeting, attended by [REDACTED] [REDACTED] was held to review the above documents. The consensus of opinion was that the outline was very inclusive of all the key elements to be covered, and that Chapters I and II were completely adequate. However, the customer believes that Chapter III, Image Quality, will be of primary interest to APSD's current operations, and should provide the primary emphasis of the handbook. It is planned to submit a draft of Chapter III in 2-3 weeks.

25X1A

25X1A

A detailed review was made of "message" traffic for both "C" and "G", in terms of message identification, chronological sequence and function. This information will be used in preparation of Appendix I of the handbook.

Continuation of Attachment A "Monthly Contract Status Report No. 5"

Technical Progress In Period

The entire period has been devoted to a detailed analysis of ON evaluation needs, and techniques for accomplishment of these requirements.

A detailed outline of the ON evaluation handbook has been initiated. This outline will include the contents and scope of each chapter. It will also provide the basis for preparing the handbook itself.

Objective for the Next Period:

It is intended to complete the final outline referenced above, and submit it for review and comments by the sponsor. Following approval of the outline, preparation of a first draft of the handbook will be begun.
